Election/Restrictions

1. Restriction to one of the following inventions is required under 35

U.S.C. 121:

- I. Claims 1-18 and 35, drawn to an information processing device, classified in class 709, subclass 202.
- II. Claims 19, drawn to electronic shopping, classified in class 705, subclass 26.
- III. Claim 20-34, drawn to market analysis or demand forecasting or surveying, classified in class 705, subclass 26.

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as lacking a electronic shopping, market analysis or demand forecasting or surveying, particulars. Invention II has separate utility such as lacking market analysis or demand forecasting or surveying, particulars. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for one group is not required for another group, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143). Applicant is reminded that a period of reply is set to expire ONE month or thirty days which ever is longer from the mailing date of this communication.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
